

K-LOVE radio is an important part of my daily life. I listen whenever I am in my car, which is often with our busy family! K-LOVE is a unique listening option in my area. Christian music is different from other types of music available by radio. I prefer K-LOVE's programming, which uplifts me and encourages my Christian faith. My children are not exposed to mature language or content when listening to K-LOVE. I am concerned that one day my K-LOVE signal will disappear, overpowered by another station providing different programming. Please protect K-LOVE! There are so many in my area who need a listening choice like K-LOVE. It is a valuable resource for information and entertainment. Thank You!
